

All information provided in this tour dossier is subject to change without prior notice. Changes would always be in consideration of your safety first and a better quality experience where possible. Overnight accommodation stops can change without prior notification, depending on road or weather conditions or any unforeseen circumstances. While every effort has been made to ensure the accuracy of the properties listed in this dossier, these are to be used as a guideline only. We recommend that you download the most up to date version of this tour dossier one week prior to your tour departure date, however, changes are possible within 7 days prior to your tour departure.

Partaking in an adventure tour in Africa involves covering hundreds if not thousands of kilometres and our tours are as much about this journey as they are about the destinations we visit. Use your time during these drives to talk to your fellow travellers, have a drink and take note of the world passing by your window. Some roads you travel on will be smooth and easy while others could take up to an hour to cover 1 kilometre. There is just no telling what could happen with road, weather, traffic and other conditions that may exist that will either increase or decrease the amount of time you spend on the road so take your watch off, put your iPad away, turn off your phone and just relax. An average day could take anything from 5 to 14 hours, it all depends on the day... and that's only an "average"!

Please ensure that you have downloaded and read a copy of the **PRE DEPARTURE INFORMATION booklet as this document contains important information (e.g travel insurance, visas, your money, health etc) you need to know before you depart on tour.**

TOUR ITINERARY

Day 1 – Dar Es Salaam to Kiwengwa

This morning you will transfer to the Dar es Salaam port for your ferry crossing to the “Spice Island” of Zanzibar. On arrival in Stone Town you will be transferred to the northern beachside town of Kiwengwa, launch site for the famous Mnemba Atoll.

Accommodation	Blu Marlin, or similar www.blumarlinzanzibar.com
Facilities	Two per Room with En-suite Bathroom <i>Please visit the website of the accommodation provider for a full list of the facilities offered.</i>
Route	Dar es Salaam to Zanzibar by ferry

Day 2/3/4/5/6 - Zanzibar Diving

Over the next five days you will dive twice each day on a selection of the Zanzibar and Mnemba Atoll dive sites. The reef of this small atoll is probably the most popular diving area in Tanzania with its shallow but rich coral reef, incredible water clarity and large species variety.

Accommodation	Blu Marlin, or similar www.blumarlinzanzibar.com
Facilities	Two per Room with En-suite Bathroom <i>Please visit the website of the accommodation provider for a full list of the facilities offered.</i>
Included Highlight	2 recreational dives daily
Dive Centre	One Ocean Zanzibar http://zanzibaroneocean.com/dive-centres/#dive-centre-kiwengwa

Mnemba Dive Sites:

Kichwani	Level: beginner-intermediate	Depth: 2-30 m
A gentle sloping wall covered in soft corals. The reef starts at 2 m and goes down to 30 m, creating a beautiful coral wall. Kichwani is home to many schools of reef fish in a myriad of colours, which makes this Mnemba dive site suitable for snorkellers too. For the diver with a sharp eye, ghost pipe fish, leaf fish and nudibranchs can be found.		
Wattabomi	Level: beginner-intermediate	Depth: 5-20 m
This is a great reef for all experience levels; it starts in 5 m of water at Mnemba's Moray Eel City, which is covered in lion fish, scorpion fish, moray eels and darting inquisitive anthias. This site has a gentle slope which helps the diver decide which depth suits their experience. Wattabomi is a puzzle of coral blocks which are home to frog fish, the Indian walkman, stone fish and many other reef fish. Snow capped anemone shrimps, porcelain crabs and many different nudibranchs can be spotted there.		
The Small Wall	Level: intermediate-advanced	Depth: 5-40 m
This is a great drift dive for the more experienced diver. The reef starts shallow and slopes down to 30 m, where it drops down vertically to 45-50 m. Several Napoleon wrasses live in this area, and sometimes white tip reef sharks can be found on the bottom. Sting rays, eels and scorpion fish can be spotted on the shallower part of the reef. The endemic and elusive Zanzibar butterfly fish can sometimes be seen in this area of Mnemba Atoll.		
Turtle Reef	Level: intermediate-advanced	Depth: 5-30 m
Another great drift dive with a sloping reef leading onto coral blocks surrounded by large schools of fish feeding in the current. A resident turtle can often be spotted there. The dive usually ends near the southern tip of Mnemba, where large schools of chubs are normally present, and where giant blue fin trevally come out of the blue to hunt on the reef.		
Mnemba – Aquarium	Level: intermediate-advanced	Depth: 12-25 m
There is usually a slight current at this site and it is best dived in drift. Long strips of hard coral outcrops are surrounded by sand. Surgeon fish, moorish idols, parrot fish, groupers, green turtles and occasionally juvenile white tip reef sharks frequent this reef. Large numbers of crescent tail big eyes drift above the hundreds of garden eels just off the reef.		
Grouper's Rock	Level: intermediate-advanced	Depth: 12-25 m
Starting at 12 m a large coral formation houses plenty of tropical fish and several moray eels, while further deep there are several grouper's caves where reef sharks can be found too. In season, spanish dancers can be spotted sleeping on the white sands along with sometimes very active nudibranchs on the beautiful coral gardens.		
Big Wall	Level: advanced-expert	Depth: 12-50 m
Warning: this dive site at Mnemba Atoll can only be dived with very calm seas with groups of advanced repeater divers. We usually drop in blue water, and after a short swim arrive to the wall itself. The top of the wall starts at 40-50 m, and drops to 80-90 m. When the currents are favourable, large schools of fish can be found here (barracudas, bigeye trevally jacks), as well as some white tip reef sharks, black tip reef sharks and Napoleon wrasses. The bottom, covered in large barrel sponges and long whip corals, then slopes up to a shallow reef around 14 m, perfect to finish the dive.		
Jack Fish	Level: advanced-expert	Depth: 10-50 m
Warning: this dive site at Mnemba Atoll can only be dived with very calm seas with groups of advanced repeater divers. This site starts on a beautiful shallower reef full of vibrant hard corals and colourful reef fish like butterfly fish and triggerfish. The wall starts abruptly around 18 m and drops to around 50 m. Well placed on the wall are beautiful pristine whip corals rarely found in such good health as well as many small pockets in the wall hiding communities of reef fish, lobsters and moray eels. Large fish can also be seen in the blue and below you, like black tip sharks, white tip sharks, large groupers and turtles if you are fortunate.		

Day 7 - Zanzibar – Bagamoyo

After our five days of beach living and diving, today we will head back to the mainland of Tanzania. After a morning ferry back to Dar Es Saaam we will transfer to Bagamoyo where we will join our Nomad truck and crew.

USEFUL INFORMATION

SOUTH AFRICA

South Africa is one of the most popular tourist destinations in Africa, as it offers truly magnificent views and has an abundance of activities to enjoy. This Southern African country is rich with culture and traditions; with every citizen having a unique heritage, culture and story to tell. Here, guests will find themselves enchanted with a unique vibrancy and absorbed in the freedom of every citizen. The combination of the beauty of the landscape and friendly nature of the locals makes South Africa a truly inspiring and exciting country to explore. Since the 17th century and the arrival of its very first settlers, South Africa has been claimed, to be one of the most beautiful destinations in the world. Not only is the weather warm and mild throughout the year, but locals and visitors enjoying an endlessly beautiful scenery and diversity in landscapes. Undoubtedly, South Africa's main attractions are its beautiful mountain and coastal views, however its cities also attract more than enough tourist attention.

In 2010, South Africa hosted the FIFA Soccer World Cup, putting on an incredible show and proving themselves as one of the world's leaders in the hospitality industry. Guests were made to feel welcome and encouraged to participate in local celebrations and enjoy the sights of each region; a

factor which surely contributed to the Mother City of South Africa, Cape Town, being voted by TripAdvisor to be the most desired tourist destination in the world. Among South Africa's other top attractions are Johannesburg (The City of Gold), Durban (a surfer's paradise), Port Elizabeth (the friendly city), the Garden Route and the Kruger National Park.

MEALS ON TOUR

Included on your tour are three meals a day (unless otherwise specified on your tour dossier). We are able to cater for specific dietary requirements to a degree, however please keep in mind that you are travelling with a group and the guides generally prepare meals on two gas burners so it is not possible for them to prepare regular meals, gluten intolerant, lactose intolerant and vegetarian meals all at the same time. Where possible, our guides will accommodate clients who have indicated their dietary requirements prior to the tour departing. We unfortunately cannot cater for requests at the start of the tour.

If you are vegan, the guides will provide you with salads, vegetables, fruits, rice, beans, pasta, cereals and breads however their budget and time does not allow them to shop for quinoa, seeds, nuts, tofu, soya milk and other protein substitutes. Please keep this in mind when going to the supermarket so that you can supplement these foods for yourself, it will be at your own expense, the guides will however store it for you in their fridge.

When travelling through Africa, the guides are briefed to shop at supermarkets as far as possible, as shopping at street vendors could be a health risk to the guests as there is no indication as to where or how the vendors grow, harvest and transport their produce. Guides have to be responsible and ensure that their produce comes from reliable sources and this can generally only be done by shopping at the supermarkets. The prevalence of street vendors also means that there is thieving from local farms who support the local industry, and this in turn means that the farms become unsustainable, leaving the community in a worse off position.

Breakfast: As breakfast is served very early in the morning (if there is driving or activities to be done) it is a simple but filling breakfast: Tea and coffee, breads and spreads, cereals, yoghurts, fruits and on occasion, when there is time for a later breakfast, guides will serve a hot breakfast of scrambled eggs, porridge, bacon or beans..

Lunch: Lunch is generally served at a picnic spot next to the road en route to a destination. As the guides only have approximately 45 minutes to get everyone off the truck, prepare lunch and then get everyone back on the truck again, lunches consist of sandwiches and salads (rice salad, pasta salad, tuna salad and green salad) which are quick and easy to prepare but which are quite filling.

Dinner: This is when the guides get time to prepare a delicious meal and they focus on a substantial protein, vegetable and carbohydrate dinner. We serve traditional campfire cuisine consisting of braais (BBQ), potjie (stew), bobotie (mince), spaghetti and fish and chicken dishes. All meals (on both accommodated and camping tours) that are included as per the dossier are prepared at the full service adventure truck. This is a unique adventure in itself where you get to dine under the stars with your new found friends and experience the real sights and sounds of Africa!

Most evenings are spent at our accommodation talking about Africa. Your tour dossier will have details of where you will be each night and the prices of meals if we are spending an evening at leisure in a city or town. After or during dinner, guides will do briefings, please use this opportunity to discuss things with them.

Standards of food in East Africa are not as high as they are in Southern Africa as there is much less time for preparation (the days on the road are longer in East Africa), food is a lot more expensive and there is not as much variety available.

Special Requirements

Please confirm to us in writing if you are a vegetarian or if you suffer from any allergies (i.e. nuts, milk, fish) (i.e. vegetarian), allergies (i.e. nuts, milk, fish). Where possible our guides do try and accommodate clients with intolerances (i.e. gluten, lactose), however we cannot guarantee the

ZANZIBAR & SERENGETI 2019: 13 Days | DZN

availability of speciality foods en-route and we therefore recommend you to bring these items with you or purchase them prior to departing on your tour. Likes and dislikes in food preferences cannot be accommodated; only allergies and life threatening situations will be regarded.

DIVING NOTES

Water conditions in South Africa can vary day by day. Temperatures will range from 14-26 degrees Celsius and we recommend a wetsuit of a minimum of 5mm for your comfort. Visibility ranges from 5-20m, with slightly better conditions in the winter months.

Diving is conducted on semi-ridged ribs with launches taking place either straight from beaches or via river mouths. These launches involve breaking through the incoming waves and can get bumpy.

All divers joining a Nomad Africa Dive Tour must hold an Advanced Open Water (or equivalent) certification as a minimum and be confident and comfortable in the water. If you are unsure whether your experience level is sufficient please contact us.

All dives are conducted within no decompression limits to a maximum of 30m and are standard air dives. Nitrox is available to divers at some of our diving locations. This will be at the extra cost of the diver and will require the proof of a Nitrox certification.

All divers must understand that Nomad Africa Dive Tours cannot guarantee any ocean sightings and there will be no financial reimbursement for dives where highlights are not seen. Please note in particular that the Sardine Run is not guaranteed and we can only work to the best of our knowledge with respect to time of year.

TIPPING ON TOUR

In general tipping in restaurants is expected and is around 10% for good service, more if you have received exceptional service, and, feel free not to tip at all if you received poor service. Tipping taxi drivers etc is really at your own discretion and not always expected. If in doubt please ask your guides. It is expected to tip porters and car guards etc. Ask your guides how much is appropriate in local currency. Our Crew can be tipped if you feel that they have done a good job and/or gone above and beyond the call of duty. The best way to arrange tips is to elect one person in the group to collect the money. We recommend USD2-3 (or about R25-R30) per day per person, per guide as a fair tip. So if you have 3-crew on a tour, we would recommend that 3 envelopes are used and each crew member's name written on one. Place what you feel is fair into each envelope and the elected person can give these to the crew at the end of the tour. If you do not feel that the crew deserve a tip, please, do not tip them. You must remember that tipping is only for exceptional service and is not at all compulsory or expected.
