

All information provided in this tour dossier is subject to change without prior notice, changes would always be in consideration of your safety first and a better quality experience. This would be where we are able to make improvements, sometimes last-minute decisions due to the nature of the tour/event. Overnight accommodation stops can change depending on road or weather conditions or any unforeseen circumstances. While every effort has been made to ensure the accuracy of the properties listed in this dossier, these are to be used as a guideline only. We recommend that you download the most up to date version of this tour dossier one week prior to your tour departure date.

Partaking in an adventure tour in Africa involves covering hundreds if not thousands of kilometres and our tours are as much about this journey as they are about the destinations we visit. Use your time during these drives to talk to your fellow travellers, have a drink and take note of the world passing by your window. Some roads you travel on will be smooth and easy while others could take up to an hour to cover 1 kilometre. There is just no telling what could happen with road, weather, traffic and other conditions that may exist that will either increase or decrease the amount of time you spend on the road so take your watch off, put your iPad away, turn off your phone and just relax. An average day could take anything from 5 to 14 hours, it all depends on the day... and that's only an "average"!

Please ensure that you have downloaded and read a copy of the PRE DEPARTURE INFORMATION booklet as this document contains important information (e.g travel insurance, visas, your money, health etc) you need to know before you depart on tour.

(World Nomads travel insurance is in no way affiliated with Nomad Tours). www.nomadtours.co.za/page/travel-insurance.

Diving notes

Water conditions in South Africa can vary day by day. Temperatures will range from 14-26 degrees celsius and we recommend a wetsuit of a minimum of 5mm for your comfort. Visibility ranges from 5-20m, with slightly better conditions in the winter months. Diving is conducted on semi-rigged ribs with launches taking place either straight from beaches or via river mouths. These launches involve breaking through the incoming waves and can get bumpy. All divers joining a Nomad Africa Dive Tour must hold an Advanced Open Water (or equivalent) certification as a minimum and be confident and comfortable in the water. If you are unsure whether your experience level is sufficient please contact us. All dives are conducted within no decompression limits to a maximum of 30m and are standard air dives. Nitrox is available to divers at some of our diving locations. This will be at the extra cost of the diver and will require the proof of a Nitrox certification. All divers must understand that Nomad Africa Dive Tours cannot guarantee any ocean sightings and there will be no financial reimbursement for dives where highlights are not seen. Please note in particular that the Sardine Run is not guaranteed and we can only work to the best of our knowledge with respect to time of year.

TOUR ITINERARY

Day 1 – Durban to Margate

Please note that during the next few days (while we are visiting Protea Banks and Aliwal Shoal), the order of activities could change without prior notice and a degree of flexibility is needed. This is to allow for maximum dive opportunities and experiences based on conditions and weather. Please also note that should conditions prevent diving we will substitute an alternative activity.

Leaving the city of Durban behind us we make our way south along the dolphin coast of Kwa-Zulu Natal. About 2 hours north of Durban is the launch site for both Aliwal Shoal and Protea Banks, home to some of the best Apex Predator shark diving. We arrive at the Dive House and settle in for our stay. This afternoon we will check all dive equipment, ensure the correct gear is allocated and have a dive briefing for the following days.

Accommodation	Sugar Beach Resort www.sugarbeachresort.co.za
Facilities	Two per room with en-suite bathroom <i>Please visit the website of the accommodation provider for a full list of the facilities offered.</i>
Route	Durban to Sugar Beach Resort
Included Highlight	Kwa-Zulu Natal coastline and dive briefing

Day 2/3/4 Protea Banks Diving

Over the next three days we will have 5 dives on the Protea Banks Reef where we hope to see some of the worlds largest marine predators. During these three days you will also be offered a baited shark dive. Diving both North and South Pinnacles we will have the chance to collect Sand Tiger Shark teeth and explore caves, swim-throughs and tunnels. An optional Tiger and Bull Shark baited dive at Protea Banks will be offered during our stay. This dive takes place in open water, hanging in the blue whilst possible Tiger, Bull, Hammerhead and Oceanic Black-Tip sharks come in to investigate the scent trail around us. A full safety briefing and training session is included and this is a breathtaking experience.

Route:	Ifafa to Shelley Beach launch area
Optional Highlight:	Protea Banks Baited Dive

Protea Banks

Protea Banks has been rated by many divers from around the world as *the* best shark dive. Many divers are scared of sharks due to horror stories and myths created by the movie world, but their fears are totally unfounded. Sharks are intelligent animals, do not recognise us as a food source and generally tend to be shy and respectful towards the divers.

Key Dive Sites

NORTHERN PINNACLES: The reef has two large cave systems which are used by the Ragged Tooth Sharks as resting zones on their annual migration and congregation route. On a good day, the diver can encounter up to 200 sharks in an area smaller than half a rugby field. Starting at the large cave we look in from the top to observe the 'Raggies' interacting peacefully with each other, often in numbers so large the bottom can hardly be seen! Afterwards we can pass through a tunnel that we can swim through (if it is not occupied by sharks). At the end of the tunnel lies the second cave. This cave is also open on top and features several chambers, each one with a wide opening at the top ceiling. If there are no Raggies in the caves, it is fun to explore around in the chambers, looking for sharks' teeth. This is the only souvenir we allow the diver to remove from the reef. As spring goes into summer, large shoals of Hammerhead Sharks frequent this part of the reef.

SOUTHERN PINNACLES: This area is home to the Zambezi Shark (Bull Shark) that Protea Banks initially became famous for. From Oct to May, some very large specimens can be encountered here. Scalloped Hammerhead Sharks are also seen shoaling at this time; they can come past in groups of up to several hundred. Hunting packs of Great Hammerheads investigate any strange noises. We start the dive at the Southern Cave full of game and reef fish and head towards Kingfish Gully, an overhanging rock that is home to large shoals of Kingfish, Yellowtail, Kaakap, Sea Pike Tunny and Potato Bass. The current then takes us to a large sandy patch called Sand Shark Gully. It lies at exactly 40m depth and is home of the Giant Guitar Shark, at times these can be seen lined up like planes at an airport.

BAITED SHARK DIVE: South Africa is one of only three countries in the world offering this kind of diving. Using a baiting technique that closely resembles the shark's natural feeding habit, African Dive Adventures lets divers as well as snorkelers and non-divers share in the experience.

SHARKS, THE GARDEN ROUTE & CAPE TOWN 2018: 17 Days | NADPC (Accommodated)

Starting with a special Tiger Shark Dive Briefing and explanation of code of conduct, guests are then taken out to Protea Banks. The bait is dropped in the water at about 6m/18ft depth and we wait until the chum slick has dissipated and a tiger shark has picked up the scent. As soon as the tiger is circling the bucket, the divers enter the water as quietly as possible and swim slowly towards the bait bucket. Divers as well as bucket will be drifting with the current as the tiger sharks swim round and round and right in between the divers. After approximately one hour we will call time out and return to base. *(This activity is optional and you need to pay the dive centre directly)*

Day 5/6 Aliwal Shoal

The following two days we spend diving the equally famous Aliwal Shoal. Renowned for Raggie Tooth Sharks congregating in their hundreds, dolphins and the baited shark dive. Each morning we will travel the hour from our Dive House in Margate to the launch site for Aliwal Shoal. Over the two days we will do 3 recreational dives on the Aliwal Shoal, including the famous "Raggie Cave". The optional baited shark dive is well worth it, with Oceanic Black-Tip Sharks gathering in large numbers and possibly Tiger Sharks investigating the bait.

Diving Aliwal Shoal

The World Famous Aliwal Shoal was formed thousands of years ago from fossilized sand dunes during the times when sea levels were much lower than they are today. The Agulhas Current that runs south along the east coast of Africa brings with it warm water and a huge diversity of tropical sea life.

Key Dive Sites

CATHEDRAL: A very popular dive for the Ragged Tooth Shark enthusiast. During the "Raggie" season it is possible to see up to 40 of these placid sharks resting within the amphitheatre. A fantastic photo opportunity! During the summer months look out for hammerheads above, and see the stingrays that take up residence when the Raggies depart. **RAGGIES CAVE:** The most popular dive site here on Aliwal Shoal. As its name suggests this is the best place to view the Ragged Tooth Sharks during the shark season. Entry into the cave is not permitted when the sharks are here but there is an excellent viewing area at the entrance where divers can safely kneel and watch the sharks' activities. When the sharks have departed this is a very good place to hunt for sharks' teeth in the sand. Please note that teeth are the only items that divers are permitted to take from the Shoal. There are many resident potato bass found in the surrounding overhangs as well as many types of moray eel.

HOWARDS CASTLE: This recently discovered and pristine site is not often dived as it requires a longer boat ride and sea conditions need to be calm. There are loads of interesting gullies and overhangs as well as a wide diversity of marine life. **INSIDE EDGE:** This section of the reef encompasses the entire inshore edge of the shoal. Although many large species of fish, sharks, dolphins and rays may be found here, it is particularly good for finding smaller things such as octopus, cuttlefish, scorpion fish, firefish, cowfish, nudibranchs and eels. The top of ledge is at about 14 to 16m and open water divers can therefore enjoy this dive site providing they level off.

OUTSIDE EDGE: This is the dive site for viewing the big stuff, and it is always a good idea to keep an eye out at midwater where schools of hammerheads, game fish or the odd tiger shark may be found. **EELSKINS:** This dive site is superb example of the fossilized rock formations. Situated near the southwestern tip of the reef there are lots of clusters of reef with plenty of sand gullies and lovely swim-through. Many cowries can be found here and as the gullies offer shelter from the currents you will often find Raggies during the season and lots of shoaling tropical fish.

NORTH EASTERN PINNACLES: A very easy and gentle dive site for open water divers and beginners. Lots of potholes forming sheltered nurseries for small fish. Many anemones and clown fish are to be found here as well as octopus. You may see some large potato bass sheltering from the current.

NORTH SANDS AND SOUTH SANDS: These two large sand patches are an ideal location for students to practice their skills and for divers to descend and pause to adjust buoyancy before exploring the reef. An ideal place to find sand sharks and often groups of dolphins can be found playing and rubbing themselves on the sand. Truly an amazing sight! **MANTA POINT:** Lots of nooks and crannies where crayfish and cleaner shrimp hide. Good area to find rays of all varieties especially Manta Rays during the season.

Day 7 – Margate to Durban to Port Elizabeth (Greater Addo Elephant National Park area)

We travel this morning to the Durban airport where we will board our flight south to the coastal town of Port Elizabeth. The Addo Elephant National Park is the third largest national park in South Africa and home to over 600 elephant, lion, buffalo, black rhino, spotted hyena, leopard and a variety of antelope. Our accommodation is located just outside the Addo NP on a private game lodge.

Accommodation	Kudu Ridge Lodge http://www.kuduridge.co.za
Facilities	Two per permanent tent with En-suite Bathroom <i>Please visit the website of the accommodation provider for a full list of the facilities offered.</i>

Day 8 - Tsitsikamma National Park

Famed for the Elephants after which the park was named, recent expansion has seen Addo grow to become the third largest of South Africa's National Parks. The unique vegetation of Addo supports a wide variety of wildlife and we will spend much of today in search of the animals that call Addo home. Setting out early this morning we game drive through the Addo National Park before turning west to Tsitsikamma, where the

Day 9 – Tsitsikamma National Park

Tsitsikamma National Park is one of South Africa's premier marine reserves and this morning we set out to explore the rugged coastline on foot. Our hike along the Waterfall Trail sees us cover the first section of the world renowned Otter Trail, this is not an easy hike and those who prefer a more leisurely option can make use of the boardwalks to the Storms River Mouth. For the adventurous the Waterfall Trail offers a spectacular winding path that follows the rocky coastline, an out and back trail we stop for a refreshing swim at the base of an icy Waterfall. For those who wish to get a birds-eye view of the magnificent forests an optional zip line tour through the canopy is offered this afternoon.

Day 10 - Heart of the Garden Route

The Garden Route is a treasure trove of beautiful beaches, forest walks and an exciting menu of optional adventures. While our morning is set aside for an exploration of Nature's Valley, this beautiful village offers us a chance to enjoy a hike or simply relax on the pristine beach in this paradise. We end the afternoon on the beautiful beaches of the Keurbooms Lagoon. Today offers a number of optional activities and your guide will assist you with a plan to get the most out the day, the truck will run a set schedule of pick-ups and drop-offs giving you the freedom to join or leave at the places of most interest to you. We celebrate our adventures with dinner out on the town this evening.

Day 12 - Oudtshoorn to Paarl

Our first stop this morning is an Ostrich Farm where we undertake a guide tour to learn more about the world's largest birds. Travelling through the valley of the Klein Karoo, we follow the winding tarmac of Route 62. Road trips in South Africa are an exploration of the rural highlights that dot the lesser known byways of the land, no journey would be complete without sampling the offerings of a "Padstal" along the way. These small farm stalls offer a selection of homemade treats and bakes and are an important cog in the economies of rural towns. One of the more quirky highlights today is Ronnie's Sex Shop, not a sex shop at all, but a rather interesting country pub! Our day ends with a celebratory dinner out.

Accommodation	Le bac Estate http://lebac.co.za/

Day 14 – Cape Town arrival and Robben Island Tour

At 12pm you will hop on the hotel shuttle service to the V&A Waterfront (upon arrival at the V&A Waterfront, make your way through the waterfront, over the foot bridge and towards the museum and the Robben Island ferry departure point), where you will board the ferry to the famous Robben Island, the location of the prison that Nelson Mandela was incarcerated on. This tour takes approximately 4 hours. Please ensure you have warm clothes as it can get windy on the ocean around Cape Town.

Accommodation	Cape Sun Hotel www.tsogosun.com
Facilities	Two per room with en-suite bathroom <i>Please visit the website of the accommodation provider for a full list of the facilities offered.</i>
Activity Package	Robben Island Tour

Day 15 – Cape Fur Seal and 7 Gilled Cow Shark Dives

After breakfast, you will be collected by a transfer at 7:30am and transferred to Simon's Town, located on the Cape peninsular and the launch site for diving with Cape Fur Seals and the 7 Gilled Cow Sharks. After a dive briefing you will board the boat and head out for your two dives of the day, one with the ever playful Cape Fur Seals and another with the 7 Gilled Cow Shark. Please note that whilst these dives are available year round you may want to check on the best seasons for these dives.

After your two dives and lunch at the dive center your transfer will take you back into the city and drop you at the V&A Waterfront for a few hours of shopping, enjoying the festive atmosphere at the waterfront. Perhaps you would like to take a tour of the Cape Town Aquarium, or simply sit at one of the many restaurants or cafes to while away some hours in the sun.

Diving with Seals and 7 Gilled Cow Sharks

Kelp Forest Dive

One of our more popular kelp forest sites is at Pyramid Rock where we have a good possibility of encountering the Sevengill shark, which is also called the Cow shark or Broadnose Sevengill. The maximum depth is only 12 meters making it ideal for beginner and junior divers to join. The shallow depths and picturesque environment makes this is the ideal environment for photographers aiming to capture these sharks in their natural habitat. The Cow sharks aggregate in the shallow channel between Pyramid Rock and the shore. If the sharks are present, there can be up to 30 sharks in the aggregation. Their curious and inquisitive nature means there is no baiting involved and we rely solely on a specific area where these animals are known to aggregate. Aside from the main attraction, the kelp forest is a beautiful environment to explore. There is an abundance of life in the kelp forest understorey.

We do have times when the sharks are not present in the area – please enquire about recent sightings when booking to have realistic expectations. If the Cow sharks are not evident, then look out for the Spotted Gully sharks, which attain 1.7 meters in length. This is a timid shark more easily approached by free divers than SCUBA divers. Then there are several species of catshark: the Pyjama catshark, Puffadder Shyshark, Leopard shyshark and Dark shyshark. These smaller sharks are between 50cm and 1.2 metres in length. The huge Short-tailed rays can occasionally be spotted. These rays grow up to 2 metres across the disk.

Cape Fur Seal Dive

The Cape Fur Seal dive is a super fun and interactive dive and one of the signature dives that Cape Town has offered for more than two decades. The seals are very playful and love to show their acrobatic skills to divers. These seals are used to divers and are not shy at all, they will often jump in the water in large numbers to come and investigate and play with divers. We dive at Partridge Point, an exposed haul-out spot for seals. There are times when the water can be rough at the site due to waves or currents. We will make a careful assessment before entering the water and reserve the right to divert the divers to a more protected site if conditions warrant it. A shallow section of the reef, known as the amphitheater, is the best spot to interact with the Seals. The deeper sections of the reef offer beautiful marine life, swim-throughs and large sea fans.

Day 16 – Cape Town City Tour, Table Mountain and Constantia Wines

The best way to experience the city of Cape Town is on the classic 'Red Bus' that guides visitors around the city with full information and allows for you to jump on and off as you please. This morning you will join the Red Bus tour at the stop nearest to your hotel and enjoy the highlights of Cape Town. Jump off the bus at the iconic Table Mountain and go up the cable car to experience the impressive views of the city and beyond. Stop in Constantia and sample the marvelous Cape wines. Take the day to explore the city and enjoy the atmosphere of this vibrant town.

Accommodation	Cape Sun www.tsogosun.com
Facilities	Two per room with en-suite bathroom <i>Please visit the website of the accommodation provider for a full list of the facilities offered.</i>
Activity Package	Red bus city tour and Table Mountain cable car

Day 17 - Gansbaai Great Whites

This morning you will have an early pick up and transfer to the town of Gansbaai, the gateway to Great White diving in South Africa. You will be collected between 5-6am and served a light breakfast upon your arrival in Gansbaai, where you will also be briefed for your cage diving adventure. Today you will experience the awe-inspiring Great White Shark, up close and personal, as each person gets the opportunity to spend some time in the cage. When not in the cage you can view these incredible animals from the viewing deck on the top of the boat. On return to land we will enjoy a light lunch before making your way back to the city.

Accommodation	Own arrangements (please arrange with the hotel concierge to store your bags, if you are not booking a post tour night for this evening)
Activity Package	Great White cage dive

This itinerary has been written with the Activity Package items included. If you wish to participate in all the activities listed, you will need to purchase the Activity Package.
