

All information provided in this tour dossier is subject to change without prior notice, changes would always be in consideration of your safety first and a better quality experience. This would be where we are able to make improvements, sometimes last-minute decisions due to the nature of the tour/event. Overnight accommodation stops can change depending on road or weather conditions or any unforeseen circumstances. While every effort has been made to ensure the accuracy of the properties listed in this dossier, these are to be used as a guideline only. We recommend that you download the most up to date version of this tour dossier one week prior to your tour departure date.

Partaking in an adventure tour in Africa involves covering hundreds if not thousands of kilometres and our tours are as much about this journey as they are about the destinations we visit. Use your time during these drives to talk to your fellow travellers, have a drink and take note of the world passing by your window. Some roads you travel on will be smooth and easy while others could take up to an hour to cover 1 kilometre. There is just no telling what could happen with road, weather, traffic and other conditions that may exist that will either increase or decrease the amount of time you spend on the road so take your watch off, put your iPad away, turn off your phone and just relax. An average day could take anything from 5 to 14 hours, it all depends on the day... and that's only an "average"!

Please ensure that you have downloaded and read a copy of the PRE DEPARTURE INFORMATION booklet as this document contains important information (e.g travel insurance, visas, your money, health etc) you need to know before you depart on tour.

(World Nomads travel insurance is in no way affiliated with Nomad Tours). www.nomadtours.co.za/page/travel-insurance.

Diving notes

Water conditions in South Africa can vary day by day. Temperatures will range from 14-26 degrees celsius and we recommend a wetsuit of a minimum of 5mm for your comfort. Visibility ranges from 5-20m, with slightly better conditions in the winter months. Diving is conducted on semi-ridged ribs with launches taking place either straight from beaches or via river mouths. These launches involve breaking through the incoming waves and can get bumpy. All divers joining a Nomad Africa Dive Tour must hold an Advanced Open Water (or equivalent) certification as a minimum and be confident and comfortable in the water. If you are unsure whether your experience level is sufficient please contact us. All dives are conducted within no decompression limits to a maximum of 30m and are standard air dives. Nitrox is available to divers at some of our diving locations. This will be at the extra cost of the diver and will require the proof of a Nitrox certification. All divers must understand that Nomad Africa Dive Tours cannot guarantee any ocean sightings and there will be no financial reimbursement for dives where highlights are not seen. Please note in particular that the Sardine Run is not guaranteed and we can only work to the best of our knowledge with respect to time of year.

TOUR ITINERARY

Day 1 - Cultural Cape Town – Stellenbosch

Set at the south-western corner of the African continent, Cape Town is scenically located at the foot of Table Mountain. This morning we spend our time experiencing some of the rich historical and cultural highlights of the city, those who have opted for the activity package will join a local tour operator for an insight into the life and history of the people living in the Cape. Enriched by our experiences we travel north to the winelands to enjoy a sampling of some fine Cape wines. Our final stop this afternoon is the historic town of Stellenbosch where we will have some time to explore the town on foot. We end this busy day with a dinner out after checking-in to our hotel this evening.

Day 13 - Kwa Zulu Natal Coast – Durban

It's all downhill as we leave the mountain scenery en route to the Kwazulu Natal Coast. On the 5th August 1962, police waved down a car on a lonely country road in KwaZulu-Natal. At the wheel was Nelson Mandela. He was arrested and spent 27 years in prison. Today you will have the opportunity to visit this historic capture site, marked by an impressive sculpture in honour of "Madiba". We will also stop at the Howick Falls to listen to the power of the falls and take some photos at the view point. Then it's onto the bustling city of Durban is South Africa's largest port and well-known surfing destination. Your tour ends upon arrival in Durban.

Day 15 – Durban to Margate

Please note that during the next few days (while we are visiting Protea Banks and Aliwal Shoal), the order of activities could change without prior notice and a degree of flexibility is needed. This is to allow for maximum dive opportunities and experiences based on conditions and weather. Please also note that should conditions prevent diving we will substitute an alternative activity.

Leaving the city of Durban behind us we make our way south along the dolphin coast of Kwazulu Natal. About 2 hours south of Durban is the launch site for both Aliwal Shoal and Protea Banks, home to some of the best Apex Predator shark diving. We arrive at the Dive House and settle in for our stay. This afternoon we will check all dive equipment, ensure the correct gear is allocated and have a dive briefing for the following days.

Day 16/17/18 - Protea Banks Diving

Over the next three days we will have 5 dives on the Protea Banks Reef where we hope to see some of the worlds largest marine predators. During these three days you will also be offered a baited shark dive. Diving both North and South Pinnacles we will have the chance to collect Sand Tiger Shark teeth and explore caves, swim-throughs and tunnels. An optional Tiger and Bull Shark baited dive at Protea Banks will be offered during our stay. This dive takes place in open water, hanging in the blue whilst possible Tiger, Bull, Hammerhead and Oceanic Black-Tip sharks come in to investigate the scent trail around us. A full safety briefing and training session is included and this is a breathtaking experience.

Protea Banks

Protea Banks has been rated by many divers from around the world as *the* best shark dive. Many divers are scared of sharks due to horror stories and myths created by the movie world, but their fears are totally unfounded. Sharks are intelligent animals, do not recognise us as a food source and generally tend to be shy and respectful towards the divers.

Key Dive Sites

NORTHERN PINNACLES: The reef has two large cave systems which are used by the Ragged Tooth Sharks as resting zones on their annual migration and congregation route. On a good day, the diver can encounter up to 200 sharks in an area smaller than half a rugby field. Starting at the large cave we look in from the top to observe the 'Raggies' interacting peacefully with each other, often in numbers so large the bottom can hardly be seen! Afterwards we can pass through a tunnel that we can swim through (if it is not occupied by sharks). At the end of the tunnel lies the second cave. This cave is also open on top and features several chambers, each one with a wide opening at the top ceiling. If there are no Raggies in the caves, it is fun to explore around in the chambers, looking for sharks' teeth. This is the only souvenir we allow the diver to remove from the reef. As spring goes into summer, large shoals of Hammerhead Sharks frequent this part of the reef.

SOUTHERN PINNACLES: This area is home to the Zambezi Shark (Bull Shark) that Protea Banks initially became famous for. From Oct to May, some very large specimens can be encountered here. Scalloped Hammerhead Sharks are also seen shoaling at this time; they can come past in groups of up to several hundred. Hunting packs of Great Hammerheads investigate any strange noises. We start the dive at the Southern Cave full of game and reef fish and head towards Kingfish Gully, an overhanging rock that is home to large shoals of Kingfish, Yellowtail, Kaakap, Sea Pike Tunny and Potato Bass. The current then takes us to a large sandy patch called Sand Shark Gully. It lies at exactly 40m depth and is home of the Giant Guitar Shark, at times these can be seen lined up like planes at an airport.

BAITED SHARK DIVE: South Africa is one of only three countries in the world offering this kind of diving. Using a baiting technique that closely resembles the shark's natural feeding habit, African Dive Adventures lets divers as well as snorkelers and non- divers share in the experience. Starting with a special Tiger Shark Dive Briefing and explanation of code of conduct, guests are then taken out to Protea Banks. The bait is dropped in the water at about 6m/18ft depth and we wait until the chum slick has dissipated and a tiger shark has picked up the scent. As soon as the tiger is circling the bucket, the divers enter the water as quietly as possible and swim slowly towards the bait bucket. Divers as well as bucket will be drifting with the current as the tiger sharks swim round and round and right in between the divers. After approximately one hour we will call time out and return to base. *(This activity is optional and you need to pay the dive centre directly)*

Day 19/20 Aliwal Shoal

The following two days we spend diving the equally famous Aliwal Shoal. Renowned for Raggie Tooth Sharks congregating in their hundreds, dolphins and the baited shark dive. Each morning we will travel the hour from our Dive House in Margate to the launch site for Aliwal Shoal. Over the two days we will do 3 recreational dives on the Aliwal Shoal, including the famous "Raggie Cave". The optional baited shark dive is well worth it, with Oceanic Black-Tip Sharks gathering in large numbers and possibly Tiger Sharks investigating the bait.

Diving Aliwal Shoal

The World Famous Aliwal Shoal was formed thousands of years ago from fossilized sand dunes during the times when sea levels were much lower than they are today. The Agulhas Current that runs south along the east coast of Africa brings with it warm water and a huge diversity of tropical sea life.

Key Dive Sites

CATHEDRAL: A very popular dive for the Ragged Tooth Shark enthusiast. During the "Raggie" season it is possible to see up to 40 of these placid sharks resting within the amphitheatre. A fantastic photo opportunity! During the summer months look out for hammerheads above, and see the stingrays that take up residence when the Raggies depart. **RAGGIES CAVE:** The most popular dive site here on Aliwal Shoal. As its name suggests this is the best place to view the Ragged Tooth Sharks during the shark season. Entry into the cave is not permitted when the sharks are here but there is an excellent viewing area at the entrance where divers can safely kneel and watch the sharks' activities. When the sharks have departed this is a very good place to hunt for sharks' teeth in the sand. Please note that teeth are the only items that divers are permitted to take from the Shoal. There are many resident potato bass found in the surrounding overhangs as well as many types of moray eel.

HOWARDS CASTLE: This recently discovered and pristine site is not often dived as it requires a longer boat ride and sea conditions need to be calm. There are loads of interesting gullies and overhangs as well as a wide diversity of marine life. **INSIDE EDGE:** This section of the reef encompasses the entire inshore edge of the shoal. Although many large species of fish, sharks, dolphins and rays may be found here, it is particularly good for finding smaller things such as octopus, cuttlefish, scorpion fish, firefish, cowfish, nudibranchs and eels. The top of ledge is at about 14 to 16m and open water divers can therefore enjoy this dive site providing they level off.

OUTSIDE EDGE: This is the dive site for viewing the big stuff, and it is always a good idea to keep an eye out at midwater where schools of hammerheads, game fish or the odd tiger shark may be found. **EELSKINS:** This dive site is superb example of the fossilized rock formations. Situated near the southwestern tip of the reef there are lots of clusters of reef with plenty of sand gullies and lovely swim-through. Many cowries can be found here and as the gullies offer shelter from the currents you will often find Raggies during the season and lots of shoaling tropical fish.

NORTH EASTERN PINNACLES: A very easy and gentle dive site for open water divers and beginners. Lots of potholes forming sheltered nurseries for small fish. Many anemones and clown fish are to be found here as well as octopus. You may see some large potato bass sheltering from the current.

NORTH SANDS AND SOUTH SANDS: These two large sand patches are an ideal location for students to practice their skills and for divers to descend and pause to adjust buoyancy before exploring the reef. An ideal place to find sand sharks and often groups of dolphins can be found playing and rubbing themselves on the sand. Truly an amazing sight! **MANTA POINT:** Lots of nooks and crannies where crayfish and cleaner shrimp hide. Good area to find rays of all varieties especially Manta Rays during the season.

Day 21 Durban

We travel this morning to the Durban airport where our tour ends upon arrival at the King Shaka International Airport.

Accommodation: Own Arrangements/post-tour accommodation/ Extension can be booked through Nomad
