

All information provided in this tour dossier is subject to change without prior notice, changes would always be in consideration of your safety first and a better quality experience. This would be where we are able to make improvements, sometimes last-minute decisions due to the nature of the tour/event. Overnight accommodation stops can change depending on road or weather conditions or any unforeseen circumstances. While every effort has been made to ensure the accuracy of the properties listed in this dossier, these are to be used as a guideline only. We recommend that you download the most up to date version of this tour dossier one week prior to your tour departure date.

Partaking in an adventure tour in Africa involves covering hundreds if not thousands of kilometres and our tours are as much about this journey as they are about the destinations we visit. Use your time during these drives to talk to your fellow travellers, have a drink and take note of the world passing by your window. Some roads you travel on will be smooth and easy while others could take up to an hour to cover 1 kilometre. There is just no telling what could happen with road, weather, traffic and other conditions that may exist that will either increase or decrease the amount of time you spend on the road so take your watch off, put your iPad away, turn off your phone and just relax. An average day could take anything from 5 to 14 hours, it all depends on the day... and that's only an "average"!

Please ensure that you have downloaded and read a copy of the PRE DEPARTURE INFORMATION booklet as this document contains important information (e.g travel insurance, visas, your money, health etc) you need to know before you depart on tour.

You will need your towel, clothes, toiletries and camping essentials.

Rhino Fund Uganda (RFU) was formed as a Non-Government Organization (NGO) in 1997 and is tasked with overseeing its aim of reintroducing Rhinoceros, a highly endangered species across the globe, back into the National Parks of Uganda through a breeding and release program. Out of this emerged the Ziwa Rhino Sanctuary, 7000 hectares of imminently suitable savannah and native woodlands.

Day 9 - Gorillas (Lake Bunyonyi)

The mountain gorilla is extremely endangered and while exact numbers vary it is widely assumed that there are only around 650 left. Visiting the gorillas is a great way to support their future on earth as the money spent on permits is used for their protection. An extremely important part of the future conservation of the remaining gorillas rests in the community development work – as local communities change their attitudes towards wildlife and start to protect rather than poach, the future of the mountain gorilla is assured.

As permits granting permission to visit the gorillas are extremely limited we require flexibility in both the tour itinerary and where we actually visit them. The home of the mountain gorillas is completely at odds with man-made borders and so their range encompasses Uganda, Rwanda and the DRC (Democratic Republic of the Congo). Whenever possible we choose to make use of the National Park in Uganda, but this depends on the availability of permits. Should we not obtain permits to visit the mountain gorillas in Uganda then we will inform all passengers beforehand that the tour will travel to Rwanda or DRC.

On your free day in Bunyonyi you will have the opportunity to participate in certain optional activities. You can also go hiking or explore the area on a mountain bike.

The other days are there to provide a large enough window in which to obtain permits and to allow the entire group to trek if there are more than 6 of you on the tour. Today we will enjoy a visit to the Nyombi Village, a Pygmy village which is reached by motor boat from Bunyonyi Resort. We will have the opportunity to learn about the culture of the Pygmies and how they live.

We do ask that you have an open mind when visiting the ablutions in the Serengeti National Park. Please supply your own wet wipes and toilet paper.
